Navigate to Human Resources, Employee, Employee, Data Mining.
Who, What, When, Why?
Employee Data Mining allows you to select specific fields from the Profile to create a report.
Create an Employee Data Mining report to print a report of selected profile data.

GETTING STARTED - HELPFUL FEATURES – EMPLOYEE DATA MINING:

1

Select Either: All Reports
My Favorites Only
My Reports Only
to Change How Reports are Displayed

2

3

Select "Views" to Provide Easier Selection Options Such as "Report Information"

Report Name	Report Title	Favorite	Created By	Editable
▶ Verification Report Simple No Codes	Verification Report Simple No Cod	☆	MCINTTAM000	Y
▶ Verification Report Salary Only No Code	Verification Report Salary Only No	☆	MCINTTAM000	Y
▶ Verification Report Primary w Act Code	Verification Report Primary w Act t	☆	MCINTTAM000	Y

4

Report Name	Report Title	Favorite	Created By	Editable
▶ TUTORS 2009 2010 In & Out	TUTORS 2009 2010 In & Out	☆	MCINTTAM000	Y
▶ UEA Open Records request 2	UEA Open Records request 2	☆	MCINTTAM000	Y
▶ Verification of XTerms to EM Assignme	Verification of XTerms to EM Assig	☆	MCINTTAM000	Y
▶ Verification Report	Verification Report	☆	MCINTTAM000	Y
▶ Verification Report for Auditors 11 12	Verification Report for Auditors 11	☆	MCINTTAM000	Y

Click on Title Boxes and Change the Order of Listings Such as "Report Title" for Alpha Order

5

Select "Filters" to Setup Various Filter Options for Easier and Quicker Selections

ADD FILTER and Set Parameters Such as Low Value and High Value; Move Labels and De-Select "DISPLAY" Labels You Do not Want to See

Data Mining

Report Name: Verification Report

Report Title: Verification Report

Report Orientation: Landscape Employee Status: Active

Print All Information on One Line Per Person [?]
This option does not apply to Address Labels, Information Labels, Export to File, or Mail Merge

Table Information [?]

Table Name	Print #
Position	1
Personnel	1
Name	1
Position/Position Payroll	1
Position/Position Payroll/Account Distribution	8

FORMAT Includes an Option to “Print All Information on One Line per Person”

Selection of This Option Removes Stacking on Skyward Reports

★★★★

Format option is VERY helpful with many types of reports, with the correct settings.

Try it both ways with different reports and select the best display for **your** Specific purpose!

4pmp06.p 62-2		Granbury, TX	
04.11.06.00.11		EM Report Template

RANGES for Individual Selections works GREAT!!!

Example:

Select Edit Ranges ... Position Description ...
INDIVIDUAL SELECTIONS – SELECT

Mark Individual Selections and SAVE

Position Description (Position)

Print Field on Report Individual Selections

Select

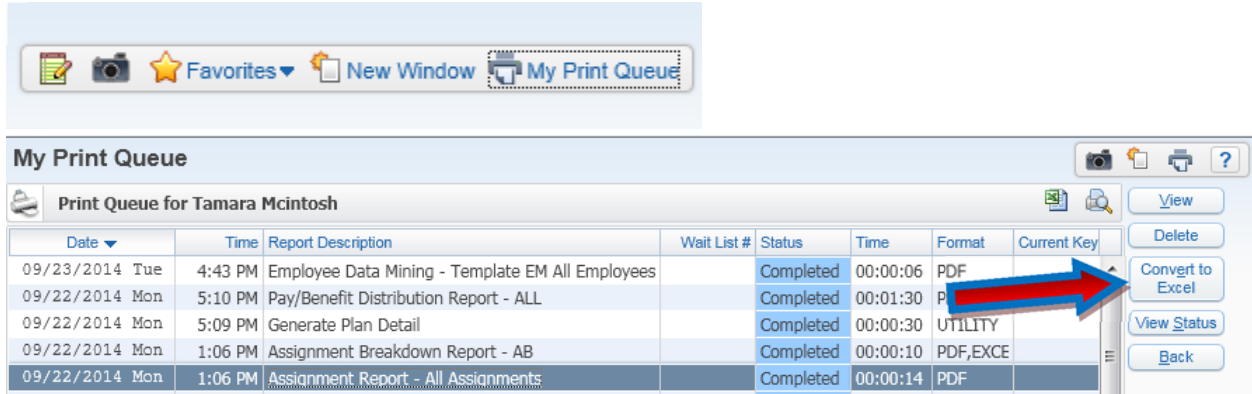

Individual Selections for: Position Description

Views: Description and Code Filters: *Skyward Default

Select	Description	Code
<input checked="" type="checkbox"/>	Allowance	
<input type="checkbox"/>	BONUS - Signing	
<input type="checkbox"/>	Campus Admin Support	
<input type="checkbox"/>	Campus Administration	
<input type="checkbox"/>	Channel 27	
<input checked="" type="checkbox"/>	Coach-FB Stipend	
<input checked="" type="checkbox"/>	Coach-FB XDays	
<input checked="" type="checkbox"/>	Coach-Other Stipend	
<input checked="" type="checkbox"/>	Coach-Other XDays	

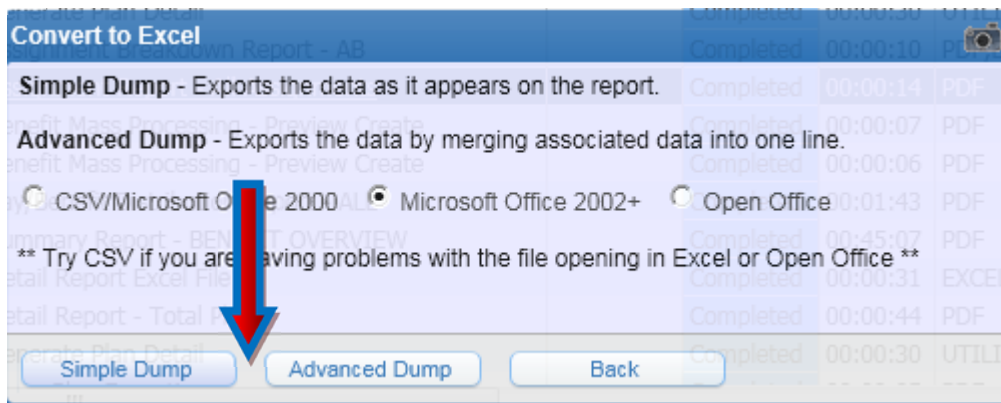

CONVERTING SKYWARD REPORTS (Not Data Mining) TO EXCEL:

- 1 SELECT A PDF REPORT FROM “MY PRINT QUEUE”

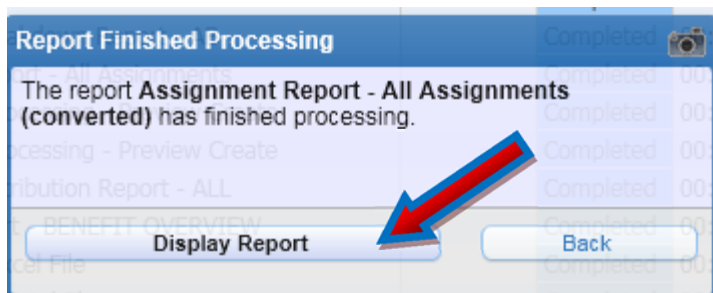

- 2 SELECT “CONVERT TO EXCEL”

- 3 REVIEW OPTIONS AND SELECT SIMPLE OR ADVANCED DUMP

- 4 SELECT DISPLAY REPORT

- 5 MODIFY AND FORMAT REPORT IN EXCEL

CREATING A BASIC SKYWARD DATA MINING REPORT

SELECT = DOUBLE MOUSE CLICK

1. RUN Web

2. SELECT: Employee - Employee Data Mining - DM

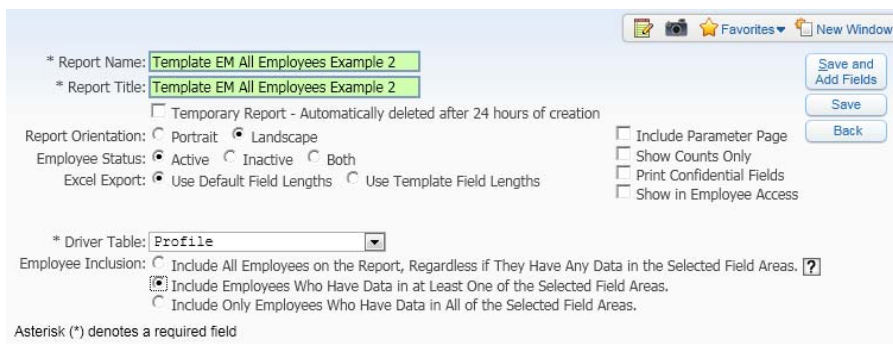

3. SELECT: Add

4. Report Name

5. REVIEW and SELECT: Options Available as Listed

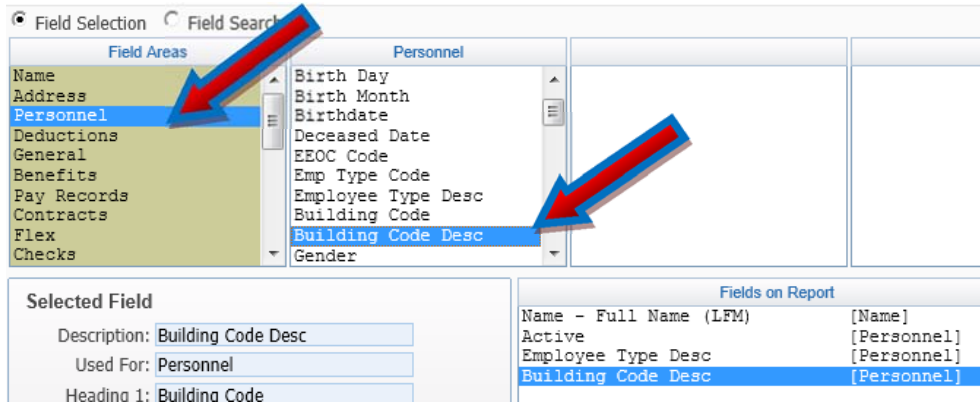

I recommend that you select 2nd Option “Include Employees Who Have Data in at Least one of the Selected Field Areas.” The other options may limit your data too tight.

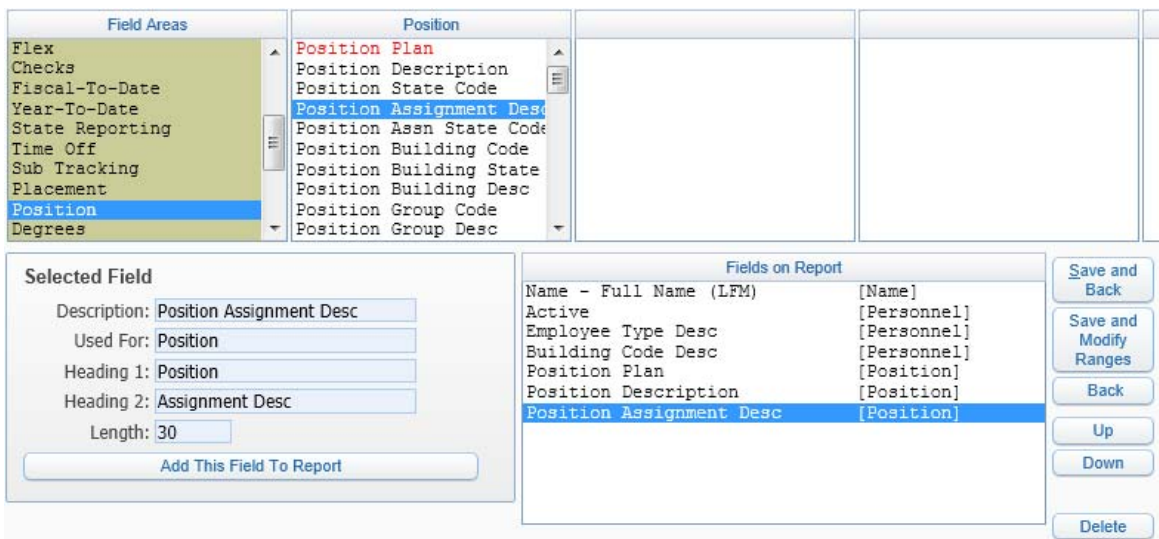

6. SELECT: Save and Add Fields

7. SELECT: Name a. SELECT: Name – Full Name (LFM)

- 8. SELECT: Personnel a. SELECT: Active**
- b. SELECT: Employee Type Desc**
- c. SELECT: Building Code Desc**

- 9. ARROW DOWN AND SELECT: a. Position**
- b. Position Plan and**
- c. Position Description and**
- d. Position Assignment Description**

10. PUT CURSOR ON POSITION PLAN and SELECT “Up” to Reposition Fields on Report

The screenshot shows a window titled "Fields on Report" with a list of fields and their corresponding data types. The "Position Plan" field is highlighted in blue. To the right of the list are several buttons: "Save and Back", "Save and Modify Ranges", "Back", "Up", "Down", and "Delete". A callout box with an arrow pointing to the "Up" button contains the text "Move the selected field up in the list". A red and blue arrow points to the "Position Plan" row in the list.

Field Name	Data Type
Name - Full Name (LFM)	[Name]
Active	[Personnel]
Employee Type Desc	[Personnel]
Building Code Desc	[Personnel]
Position Plan	[Position]
Position Description	[Position]
Position Assignment Desc	[Position]

11. SELECT: Save and Modify Ranges – This will take you to the RANGES Screen

The screenshot shows the same "Fields on Report" window as in step 10. In this view, the "Position Plan" field is still selected, but the "Save and Modify Ranges" button is highlighted with a red and blue arrow.

12. ON THE RANGES SCREEN SELECT:

Position Plan and Check Individual Selections and Click Select

The screenshot shows a window titled "Position Plan (Position)". It has two checked checkboxes: "Print Field on Report" and "Individual Selections". Below these is a "Select" button, which is highlighted with a red and blue arrow. There is also an empty text input field to the right of the "Select" button.

13. SELECT Plan Description and SELECT SAVE

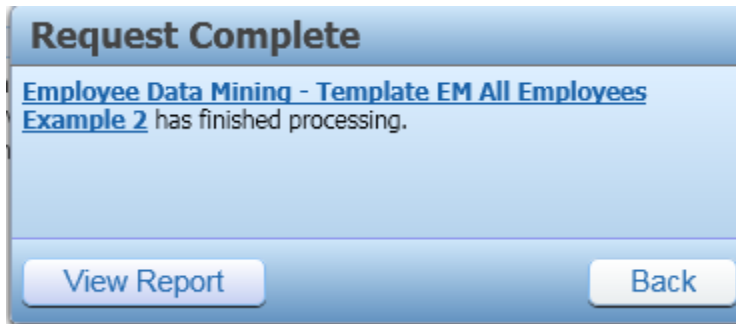

The screenshot shows a window titled "Select EM Plan(s)". It has a table with columns for "Select", "Plan Description", "Plan Year", and "Plan ID". The row for "2015 - 2016 Active EM Plan" is selected, and its "Select" checkbox is checked. A red and blue arrow points to the "Save" button on the right side of the window. Another red and blue arrow points to the "2015 - 2016 Active EM Plan" row in the table.

Select	Plan Description	Plan Year	Plan ID
<input type="checkbox"/>	2007-2008 EMP MGMT PLAN	2007	9
<input type="checkbox"/>	2008-2009 Active EM Plan Final	2008	16
<input type="checkbox"/>	2009 - 2010 Active EM Plan	2009	30
<input type="checkbox"/>	2010 - 2011 Active EM Plan	2010	39
<input type="checkbox"/>	2011 - 2012 Active EM Plan	2011	49
<input type="checkbox"/>	2012 - 2013 Active EM Plan	2012	62
<input type="checkbox"/>	2013 - 2014 Active EM Plan	2013	71
<input type="checkbox"/>	2014 - 2015 Active EM Plan Fin	2014	77
<input checked="" type="checkbox"/>	2015 - 2016 Active EM Plan	2015	87

17. SELECT: First 10 Records

18. SELECT: View Report

Review this sample report – Does it include the data that I need?
SELECT X to Close After Reviewing

19. Modify Report as Necessary Until Satisfied with Data/Report

20. SELECT: Either PRINT or EXCEL ... I ALWAYS Select to Download to Excel

21. WAIT for My Print Queue to Prepare Report

22. SELECT: View Report and Open and Yes (If you receive this format warning)

23. EDIT, FORMAT AND SAVE EXCEL REPORT

24. SELECT: Back in Skyward to Close Employee Data Mining

NOTE:

If you have your VIEW set at “Field Selection” your new report will be viewable under Report Name instantly.

If you have your VIEW set at ”Report Information” you will need to Select Your New Report Name to edit, clone, print, etc.

The above is an example of a very “basic” report setup, but it provides the general information on how to setup your report, select your fields and ranges and change your “format” if helpful (see Helpful Tips and Shortcuts).

Explore and Try Various Other Methods in Skyward to Create Simple Reports in Addition to Using Data Mining:

- Use the EXCEL  Icon to Download Data into Excel from Various Screens
- Use “Reports” in EMPLOYEE ADMINISTRATION to Create Numerous Skyward Reports
- After Running Reports, Go To “My Print Queue” Select a Report and Convert to Excel
- Use the PRINTER FRIENDLY  Icon to Display Current View – Select to Show or Hide Each Field - Select “Print This Screen”
- Use the CAMERA  Icon to Send a Screen Shot of Current View to the Print Queue
