

# Summer School

## What will be covered:

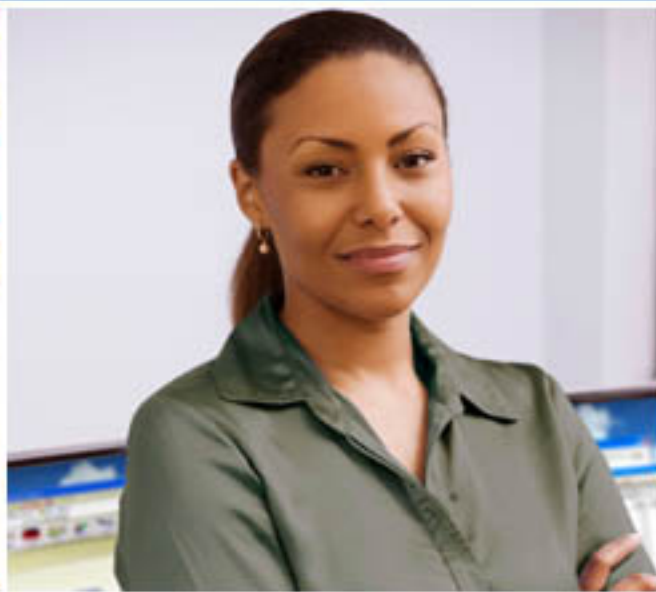

This session will cover items to consider, modules to use, enrollment and setup for rolling out Summer School.

- Prior to Configuration
  - Will you be cloning a regular entity?
  - What are your calendar dates and times?
  - How many terms?
  - Who will be attending?
  - Will you be using GB and/or Attendance?
  - Will you be sending out Report Cards/Progress Reports?
  - What courses will you need and how many sections?
  - Who will be your staff members?
  
- Modules to Use
  - Attendance
  - Grading
  - Current Scheduling
  
- Summer School Configuration:
  - Select Entity to Clone
    - Select Entity Code
  - Entity Maintenance
    - Name Summer School
    - Entity Type – Summer School
    - Allow Add of an Active Student to Another Entity
    - Student Locator Times – Scheduling Period Times, Bell Schedule
  - Entity – School Cross Reference
    - Summer School
  - Entry/Withdrawal Defaults
    - Entry Date
    - Entry Code
  
- Current School Year:
  - Scheduling

- Maximum Semester, Term, and Period Values
  - Entity Year Options
  - Scheduling Options
  - Term Definitions
    - Semester Options
    - Start and Stop Details – Term Dates
  - Course Defaults
    - Course Length
    - Calendar
    - Min/Max Seating
    - Attendance and Grading
    - Class Meet Defaults
- Grading
  - Semesters, Terms, and Grade buckets
  - Comment Options
  - GPA Options
  - Misc Options
- Attendance
  - Terms/Period Values
- Texas Entity Info
  - Report Entity to PEIMS
  - Print blank Campus ID of Enrollment
