## Responsive Custom Forms & JavaScript

- Adding a Custom Form
  - Single Form Per Student
  - Multiple Forms Per Student
- Custom Fields
- Skyward Fields
- Custom Screens (SkyCoder)
- Advanced Forms
- HTML Forms
- Linking Custom Forms
  - Registration Forms
  - New Student Online Enrollment Forms
  - Online Forms (Family Access)
- Secured Forms
- JavaScript

# Responsive Custom Forms & JavaScript

Adding a **Custom Form** and choosing between **Single Forms** or **Multiple Forms Per Student**.

- Add Custom Form

The screenshot shows a web interface titled "Form Maintenance". It features a toolbar with icons for help, refresh, camera, print, and search. The main form area is titled "Form" and contains the following fields and controls:

- System: Custom Student
- \* Form Name: [Text Input Field]
- Form Type:  Single form per student  Multiple forms per student

On the right side of the form, there are three buttons: "Save And Go To Next Step", "Save", and "Back". Below the form, a note states: "Asterisk (\*) denotes a required field".

Building **Custom Fields** and utilizing **Skyward Fields**.

- Custom Fields vs. Skyward Fields

▼ Custom Fields		Add Field					
		Label	Data Type	Read Only	Required	Initial	
Edit	Delete	NeedTransportation	Character		Yes		View Field Information
Edit	Delete	Parent Signature	Character		Yes		View Field Information
Edit	Delete	Signature Date	Date		Yes		View Field Information
Edit	Delete	Understand/Do Not (Y)	Character		Yes		View Field Information

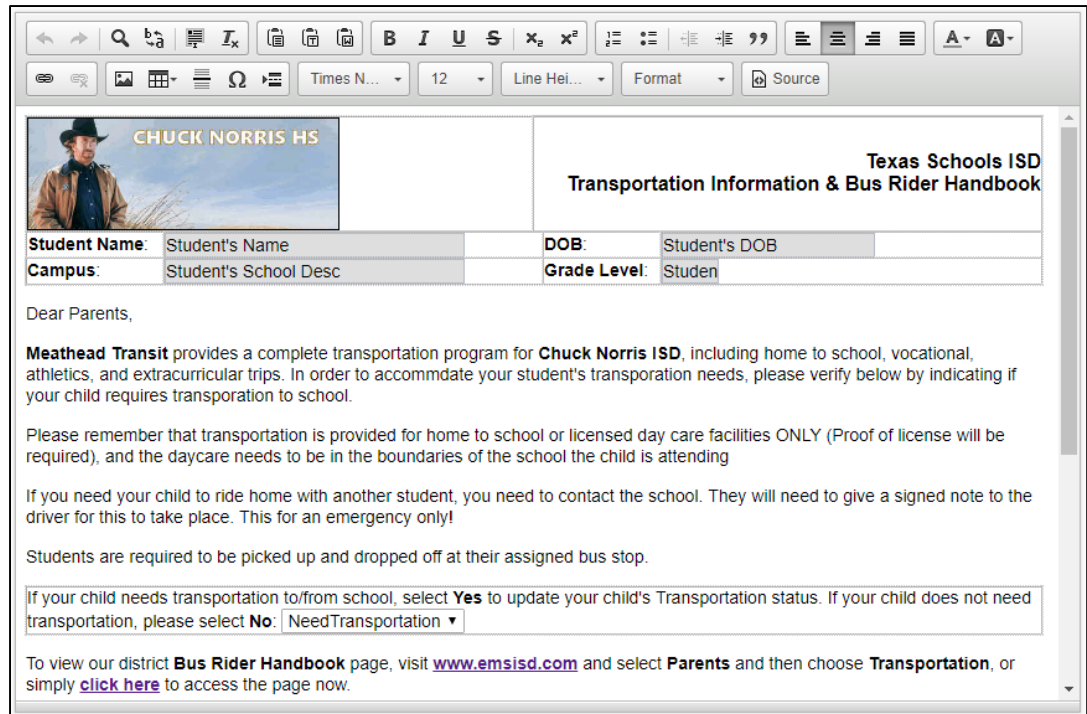

▼ Skyward Fields to Use		Select Fields					
		Label	Data Type	Can be Modified?	Read Only	Required	
Edit	Delete	Student's DOB	Date	Yes	Yes	No	
Edit	Delete	Student's Name	Char	No	N/A	N/A	
Edit	Delete	Student's Grade	Char	No	N/A	N/A	
Edit	Delete	Student's School Desc	Char	No	N/A	N/A	
Edit	Delete	Transported	Logical	No	N/A	N/A

Creating **Advanced Forms** using editor and implementing **Custom** and **Skyward Fields**. How to set up **Secure Forms**.

- **Advanced Forms**

The screenshot shows a web form editor interface. The form is titled "Transportation Information & Bus Rider Handbook" for "Texas Schools ISD" and "CHUCK NORRIS HS". It contains several input fields: "Student Name" (with a placeholder "Student's Name"), "DOB" (with a placeholder "Student's DOB"), "Campus" (with a placeholder "Student's School Desc"), and "Grade Level" (with a placeholder "Studen"). Below these fields is a paragraph of text: "Dear Parents, Meathead Transit provides a complete transportation program for Chuck Norris ISD, including home to school, vocational, athletics, and extracurricular trips. In order to accomodate your student's transporation needs, please verify below by indicating if your child requires transporation to school. Please remember that transportation is provided for home to school or licensed day care facilities ONLY (Proof of license will be required), and the daycare needs to be in the boundaries of the school the child is attending If you need your child to ride home with another student, you need to contact the school. They will need to give a signed note to the driver for this to take place. This for an emergency only! Students are required to be picked up and dropped off at their assigned bus stop. If your child needs transportation to/from school, select Yes to update your child's Transportation status. If your child does not need transportation, please select No: NeedTransportation". At the bottom, there is a link to the district's Bus Rider Handbook page: "To view our district Bus Rider Handbook page, visit [www.emsisd.com](http://www.emsisd.com) and select Parents and then choose Transportation, or simply [click here](#) to access the page now."
