

Texas Skyward User Group Conference

Using the new TSDS PEIMS

John Newcom

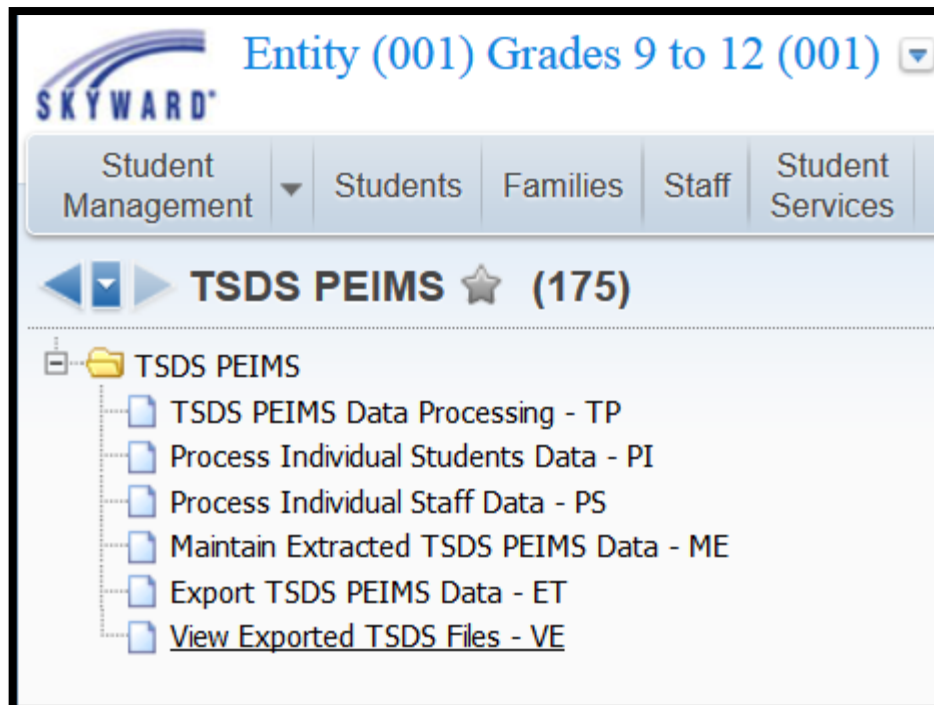

Using the new TSDS PEIMS

In this session you'll get an introduction to the new TSDS-based PEIMS processes that are replacing the obsolete Legacy-based system that has been in use since TSDS premiered. We'll cover:

- TSDS Data Processing
 - Report Only
 - Extract
 - Rule Report
- TSDS Maintain
 - Rules/Documentation
- Export – View/Save

Overview

The screenshot displays the Skyward software interface for Entity (001) Grades 9 to 12 (001). The navigation menu includes Student Management, Students, Families, Staff, and Student Services. The main content area shows the TSDS PEIMS (175) section with a folder icon and a list of data processing tasks:

- TSDS PEIMS
 - TSDS PEIMS Data Processing - TP
 - Process Individual Students Data - PI
 - Process Individual Staff Data - PS
 - Maintain Extracted TSDS PEIMS Data - ME
 - Export TSDS PEIMS Data - ET
 - View Exported TSDS Files - VE

Report Types:

- Report Only
- Extract
- Rules Report

Add Process Ranges (280)
