The screenshot shows a web application interface with two windows. The main window, titled 'Status Codes (152)', displays a table of status codes. The table has three columns: 'Code', 'Short Description', and 'Long Description'. The first row is highlighted in green and contains the code 'ACT', 'ACTIVE', and 'ACTIVE'. Other rows include 'CO' (Completed), 'CVI' (CONV-INACT), 'IN' (INACTIVE), and 'IP' (In progress). To the right of the table are buttons for 'Select', 'Add', 'Edit', 'Delete', and 'Back'. Below the table, there are dropdown menus for 'Views' (set to 'General') and 'Filters' (set to '*Skyward Default').

An overlay window titled 'Status Codes Maintenance (122)' is open in front of the main window. It contains a form for editing a status code. The form fields are: 'Status Code: ACT', '* Short Description: ACTIVE', and '* Long Description: ACTIVE'. Below these fields are two checkboxes: 'Ineligible for Section 504' (checked) and 'Code is Active' (checked). To the right of the form are 'Save' and 'Back' buttons. At the bottom of the modal, a note states: 'Asterisk (*) denotes a required field'.

Reporting Dyslexia through 504

Dyslexia can be reported through Disabilities or Impairments. Marking the Record Ineligible for Section 504 will keep it reporting to PEIMS.
